INDUSTRY MEETING POINT SHK ESSEN

As the most visited national trade fair for the HVAC industry in Germany, SHK ESSEN offers outstanding contact potential for exhibitors every two years, with **560 exhibitors from 18 nations** and over **48,000 visitors from 16 countries**. In the midst of a thriving economic area – in the heart of the most highly sought-after construction region of Europe with close proximity to the **Benelux region** – SHK ESSEN has established itself as the industry platform for sanitation, heating, air conditioning and renewable energies. Since 1966, it has been bringing tradesmen, retailers, specialist planners and architects together with decision-makers in the sector, covering the entire spectrum of industry innovations.

THE ENTIRE INDUSTRY UNDER ONE ROOF

SHK ESSEN covers the full range of relevant business fields: the sanitation industry with functional design solutions for modern housing and residential construction, resource-saving technologies, highly efficient heating technology for new and existing buildings, innovative air conditioning and ventilation systems for a healthy living environment, forward-looking building technology, particularly with regard to renewable energies, as well as the areas energy supply and services, refrigeration and supply/waste management.

- **BDH Exhibition:** focus on modern heating technologies
- **Architectural tours:** guided tours to innovative exhibitors (in planning)
- **Trade press stand:** comprehensive range of specialist media

THE NEW MESSE ESSEN

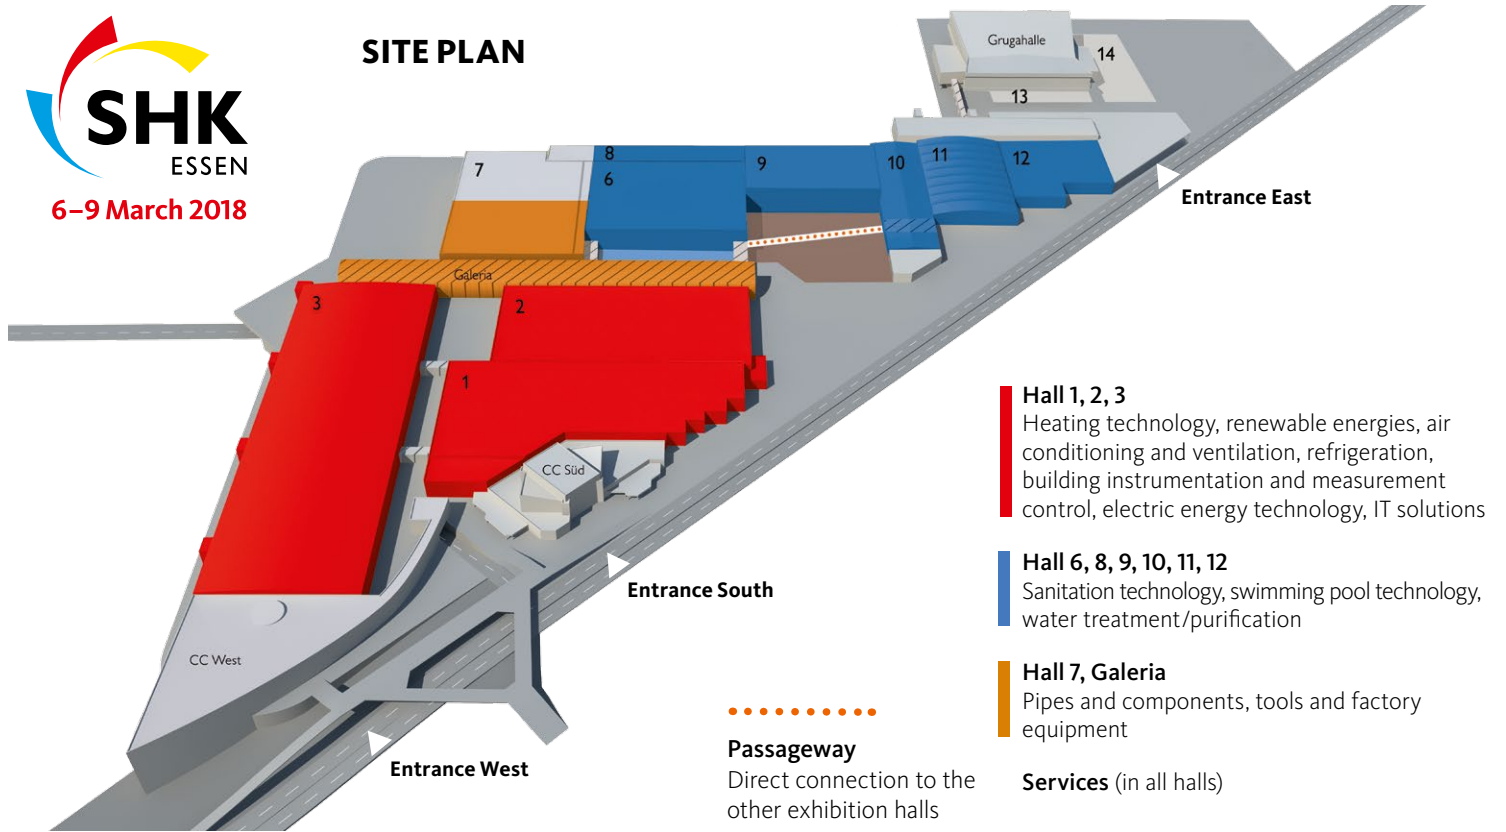

You can look forward to the new 2,000 square metre glass foyer at Messehaus Ost – on the occasion of SHK ESSEN 2018, we will already be opening the doors there. This gives your visitors a total of three prestigious entrances to the exhibition halls. In addition, the northern part of Hall 9 has been completed. Here you will find a new single-storey hall that is flooded with daylight.

At SHK ESSEN 2020, the remodelling of MESSE ESSEN into one of the most technically state-of-the-art exhibition centres in Germany will be complete. Short distances, eight large-scale, single-storey buildings and lots of daylight will provide the ideal exhibition conditions while creating a new sense of well-being at the trade fair.
